

VOLUNTEER UNITED

Thank you for helping us start summer 2020's [Days of Action](#) off strong! Whether you helped us pack and deliver home care kits, donated blood, or volunteered your home or business as a project site, you played a part in helping make our community a better, stronger place to be.

Because of you,

- **98 units of blood** were collected, saving as many as 194 lives.
- We enabled **more than 50 residents** to keep their homes safe and healthy through distributing essential cleaning supplies.
- Over the next few months, more than **30 city, business, and residential projects** will be completed with volunteers in downtown Coleraine.

Thank you again for your kindness and generosity. It's community members like you who make the Itasca area such a wonderful place to live, work, and play.

We invite you to continue being involved throughout the summer. Find volunteer opportunities, nominate project recipients, and learn more about Days of Action at uwlakes.org or by calling United Way at 218-999-7570.
