RE: Sewer Rate Increase

Dear Coleraine Resident,

This letter is to inform you that the Coleraine City Council approved an increase in its sewer rate at its November 25, 2019 regularly scheduled meeting. The rates are expected to increase the City's utility bill by \$10 per month, from \$83 to \$93.

What is causing the increase?

After reviewing the budget figures for revenues, expenditures and capital replacement costs out of the City's Public Utilities fund, as well as considering Coleraine's portion of the CBT's USDA loan for its newly completed forcemain, the Council voted to approve this \$10 rate increase.

When will this take effect?

This rate increase will be activated on the City's utility billing statement effective January 1, 2020.

If you have additional questions, please contact the City Clerk's office.

Coleraine Public Utilities

Dated this 9th day of December, 2019.
